NOSAD SATTAR SOHAG

JUNIOR FULL STACK DEVELOPER

Chattogram, Bangladesh | +880 1600-838406 | nosad.s.w@gmail.com
GitHub | LinkedIn

PROFESSIONAL PROFILE

A Computer Science and Engineering student aspiring to become a Full Stack Developer, with a growing interest in AI-powered applications and modern web technologies. Experienced in building practical web projects using React, Next.js, TypeScript, Node.js, Express.js, and MongoDB. Eager to solve real-world problems, explore emerging technologies, and grow through continuous learning and hands-on development.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, React Hooks, TypeScript, Next.js, Tailwind CSS, Responsive Web Design, HeroUI, shadcn/ui

Backend & APIs: Node.js, Express.js, REST APIs, MongoDB, JWT Authentication, Middleware, CRUD Operations

AI-Native Workflow: Antigravity IDE, ChatGPT, Claude and others

PROJECTS

BookNook – Library Management Platform

Live Demo | Client GitHub | Server GitHub

Tech Stack: Next.js, React, TypeScript, Tailwind CSS, Node.js, Express.js, MongoDB

Description: A full-stack library management platform that allows users to explore a digital book catalog and manage book borrowing activities through an interactive interface.

Key Features:

- Browse books and explore detailed book information.
- Manage book borrowing and return activities.
- Connect frontend features with REST APIs and MongoDB.

Dor Bazar – Daily Market Price Tracking Platform

Live Demo | GitHub Repository

Tech Stack: Next.js, React, TypeScript, Tailwind CSS

Description: A web-based platform for exploring essential product prices across different markets and tracking daily price fluctuations.

Key Features:

- View daily prices of essential goods across different markets.
- Compare product prices between multiple markets.
- Track price increases and decreases compared with the previous day.

FitLog – Workout Library Platform

Live Demo | GitHub Repository

Tech Stack: React, TypeScript, Tailwind CSS

Description: A workout library platform designed to help users explore workout information, save their preferred workouts, and organize a personalized workout plan.

Key Features:

- Explore a collection of workout information.
- Save selected workouts and organize them in My Plan.
- Preserve saved workout plans using browser local storage.

CAREER OBJECTIVE

I haven't had the opportunity to work with real clients yet, but I've been building my skills through personal projects and hands-on development. Each project has strengthened my problem-solving abilities and helped me turn ideas into working applications.

I'm now looking for an opportunity to gain real-world experience, contribute my skills, and continue growing as a developer. I'm ready to learn, work hard, and deliver meaningful results.

EDUCATION

International Islamic University Chittagong (IIUC) — B.Sc. in Computer Science & Engineering | 2024–2028 (Expected)

LANGUAGES

Bangla: Native | **English:** Intermediate
